December 19, 2017

Dear Parents, Guardians, and Students,

East Lee County High School welcomes you to our exciting school. If you are looking for a place to find your best self, to achieve academically beyond your expectations, and to connect to your next step in college or careers, we may be your best choice for the 2018-19 school year!

Our **Student Assignment Night on Tuesday, January 9th** is the place to discover what makes East Lee County High a strong choice for the college and career connection. If you're interested in learning what our Scholars do now to prepare for that next step, you won't want to miss the next **Tuesday, January 16, 2018 for our Cambridge and Academies Informational Night.**

At ELCHS, we believe each student is a scholar and unique, so we work with families to create an educational setting that allows the students to explore academic structures tailored to each child's strengths and needs. The Cambridge/AICE program is an international college level program offering challenging college-level courses, college credit, and degree options. Some students also work in our AVID program, which provides additional college focused study, organization, and advocacy skills. Our students also have the opportunity to pair their academic coursework with a wide range of Career and Technical Education Academies, including Fire, Medical, Automotive, Criminal Justice, Welding, Building Construction, Culinary, TV Production and Digital Design. Each of the specialized academies provides learning communities within the school, giving students a chance to experience real world teamwork and collaboration. Industry certifications and experience add another layer to the rich education of ELCHS scholars. Our students graduate with marketable skills and certifications required in specialized businesses and industries, along with study skills and college credit to take them to their next steps in college or careers.

We welcome the opportunity to work with you and your child to create a plan for successful learning and hope to continue to work together in the years to come.

Sincerely,

Brian L. Gibson
Assistant Principal
