Title 1 School

Dear East Lee Family,

What a tremendous start to the year we have had! I want to thank the students for doing everything we have asked them to do, allowing for a better academic environment. Thank you to our teachers who show up each day ready to teach and engage our students, which allows them to grow into better individuals. Lastly, I would like to thank the administration for helping to support the vision we have here at East Lee County. As we start the second semester, it is important that you, as the parent, encourage your student to attend school every day, ready to learn. They also must show up on time to school and class. It has been proven that when students are in school, they have a better opportunity for academic success.

Parents, as always, our top priority is preparing our students academically, technically, and socially for life after graduation, but we need your assistance. Parent involvement has been proven to increase student achievement. We look forward to partnering with you to ensure our students' highest level of success. Again, I am extremely excited to be the Principal at East Lee County and look forward to a new and successful year.

Yours in Education,

Tony A. Allen
